

**ETN**

## **PARTICIPATION LIST**

### **The Future of Gas Turbine Technology 3<sup>rd</sup> International Conference 11-12 October 2006 – Brussels - Belgium**

| <b>LAST NAME, FIRST NAME</b> | <b>ORGANISATION</b>                       | <b>COUNTRY</b>  |
|------------------------------|---|-----------------|
| Agis, Ozkan                  | ENKA                                      | Turkey          |
| Aigner, Manfred              | DLR - German Aerospace Center             | Germany         |
| Alvarez, Tomas               | Endesa Generacion                         | Spain           |
| Alvestig, Per                | Gas Turbine Efficiency Sweden AB          | Sweden          |
| Andrew, Philip               | Advanced Technology, GE Energy            | U.S.A.          |
| Angel, Brian                 | Renuda SARL                               | France          |
| Assadi, Mohsen               | Lund University                           | Sweden          |
| Baetens, Danielle            | Ernst & Young Subsidia                    | Belgium         |
| Becker, Hinrich              | MTU Maintenance Berlin-Brandenburg        | Germany         |
| Biollo, Roberto              | University of Padova                      | Italy           |
| Bjorkqvist, Christer         | ETN - European Turbine Network            | Belgium         |
| Borghetti, Sandra            | ROMA TRE University                       | Italy           |
| Bremer, Joachim              | ABB Turbo Systems Ltd                     | Switzerland     |
| Breuhaus, Peter              | ALTSOM Power Service                      | Switzerland     |
| Brouckaert, Jean-Francois    | EVI-GTI                                   | Belgium         |
| Brückner-Kalb, Jochen        | TU München                                | Germany         |
| Cameron, Ian                 | Diesel and Gas Turbine Worldwide          | United Kingdom  |
| Carraretto, Cristian         | University of Padova                      | Italy           |
| Castellazzi, Luca            | ENEA                                      | Italy           |
| Cerri, Giovanni              | ROMA TRE University                       | Italy           |
| Charlier, Hugues             | Donaldson Europe bvba                     | Belgium         |
| Clerens, Patrick             | EPPSA                                     | Belgium         |
| Crayford, Andrew             | Cardiff University                        | United Kingdom  |
| Crowden, Tommy               | E.ON UK Power Technology                  | United Kingdom  |
| Dagnall, Chris               | Cogsys Limited                            | United Kingdom  |
| De Ruyck, Jacques            | VUB - Vrije Universiteit Brussel          | Belgium         |
| Dechamps, Pierre             | European Commission - DG Research         | Belgium         |
| den Held, Paul               | Shell Global Solutions International B.V. | The Netherlands |
| Deneve, Michael              | Laborelec                                 | Belgium         |

|                          |  |                 |
|--------------------------|--|-----------------|
| Der, Victor K.           | Dept of Energy's Fossil Energy Program Office, DOE | U.S.A.          |
| Dhaese, Johan            | Ernst & Young                                      | Belgium         |
| Dijkstra, Nutte          | Stork Thermeq B.V.                                 | The Netherlands |
| Dobski, Tomasz           | Poznan University of Technology                    | Poland          |
| Dodero, Giorgio          | University of Bologna                              | Italy           |
| Facchin, Carlo           | Il Sole 24 ORE S.p.A.                              | Italy           |
| Franke, Manfred          | Franke-Filter GmbH                                 | Germany         |
| Fredriksson, Carl        | Concepts NREC                                      | Sweden          |
| Galanis, Ioannis         | European Commission - DG TREN                      | Belgium         |
| Gelissen, Philippe       | Electrabel   | Belgium         |
| Ghisu, Tiziano           | University of Cambridge                            | United Kingdom  |
| Gokalp, Iskender         | LCSR-CNRS  | France          |
| Goy, Catherine           | E.ON UK  | United Kingdom  |
| Griebel, Peter           | Paul Scherrer Institute                            | Switzerland     |
| Hardalupas, Yannis       | Imperial College London                            | United Kingdom  |
| Haukebø, Bjørn           | Ecoxy AS   | Norway          |
| Haworth, Adrian          | GE Energy  | United Kingdom  |
| Hesters, Christophe      | SNECMA   | France          |
| Hirsch, Charles          | NUMECA International                               | Belgium         |
| Hoenen, Herwart          | RWTH Aachen  | Germany         |
| Holmes, Peter D.         | ALSTOM   | Switzerland     |
| Igoe, Brian              | Siemens Industrial Turbomachinery Ltd              | United Kingdom  |
| Isles, Junior            | The Energy Business Times                          | United Kingdom  |
| Jaffé, Luisa             | ETN - European Turbine Network                     | Belgium         |
| Jansohn, Peter           | Paul Scherrer Institute                            | Switzerland     |
| Jeras, Viktorija         | European Parliament                                | Belgium         |
| Jordan Cizelj, Romana    | European Parliament                                | Belgium         |
| Kaltwasser, Uwe          | MTU Maintenance Berlin-Brandenburg                 | Germany         |
| Kamminga, Piet           | Thomassen Turbine Systems                          | The Netherlands |
| Kangas, Pekka            | Neste Oil Oy                                       | Finland         |
| Kavanagh, Ronan          | University of Cambridge                            | United Kingdom  |
| Keustermans, Jean-Pierre | Laborelec  | Belgium         |
| Kim, Moon-Young          | KPS -- Korea Plant Service & Engineering           | Korea           |
| Kliemank, Ulf            | MTU Maintenance Berlin-Brandenburg                 | Germany         |
| Klijnsma, Bram           | Electrabel   | Belgium         |

|                        |   |                 |
|------------------------|---|-----------------|
| Koch, Andreas          | DLR -German Aerospace Center              | Germany         |
| Konnov, Alexander      | VUB - Vrije Universiteit Brussel          | Belgium         |
| Kremer, Udo            | EUnited Turbines                          | Belgium         |
| Kuckshinrichs, Wilhelm | Research Center Jülich                    | Germany         |
| Kurz, Rainer           | Solar Turbines Incorporated               | U.S.A.          |
| Lipatnikov, Andrei     | Chalmers University of Technology         | Sweden          |
| Lock, Gary             | Frazer Nash                               | United Kingdom  |
| Logan, James           | Rolls-Royce                               | United Kingdom  |
| Luckey, James          | International Power Generation            | United Kingdom  |
| MacKenzie, Kenneth     | Sulzer Elbar B.V.                         | The Netherlands |
| Mattheij, Sjef         | Sulzer Elbar B.V.                         | The Netherlands |
| Maunand, Jacques       | EDF                                       | France          |
| McArthur, Stephen      | Wood Group                                | United Kingdom  |
| Meijer, Kees           | Stork Thermeq                             | The Netherlands |
| Micco, Fred            | Vibro-Meter SA                            | Switzerland     |
| Mikkelsen, Erik        | Nebb Engineering AS                       | Norway          |
| Miron, Emil            | Regia Autonoma de Termoficare Cluj-Napoca | Romania         |
| Mom, Andre             | ETN - European Turbine Network            | The Netherlands |
| Moroz, Leonid          | SoftInWay, Inc.                           | U.S.A.          |
| Morris, Steve          | Cardiff School of Engineering, CREWE      | United Kingdom  |
| Mulder, Mark           | VGT - Dutch Gas Turbine Association       | The Netherlands |
| Neville, Andrew        | CTV - Centrale Thermique de Vouvry SA     | Switzerland     |
| Obana, Mitsuru         | Rolls-Royce plc                           | United Kingdom  |
| Oltedal, Heikki        | Statoil ASA                               | Norway          |
| Outa, Eisuke           | Waseda University, Member of GTSJ         | Japan           |
| Park, Sang Yeol        | KPS - Korea Plant Service & Engineering   | Korea           |
| Pilidis, Pericles      | Cranfield University                      | United Kingdom  |
| Pitt, Brian            | Consultant                                | United Kingdom  |
| Pittaluga, Ferruccio   | DIMSET/SCL – University of Genoa          | Italy           |
| Pollard, David         | ALSTOM                                    | United Kingdom  |
| Polyviou, Polyvios     | Electricity Authority of Cyprus           | Cyprus          |
| Poullikkas, Andreas    | Electricity Authority of Cyprus           | Cyprus          |
| Purwanto, Aji          | NUMECA International                      | Belgium         |
| Rao, J.S.              | Altair Engineering                        | India           |
| Rea, Suzanne           | E.ON UK                                   | United Kingdom  |

|                       |   |                 |
|-----------------------|---|-----------------|
| Reinertsen, Rune      | Statoil   | Norway          |
| Rinaldi, Claudia      | CESI RICERCA S.p.A.                                   | Italy           |
| Saether, Sturla       | Ecoxy AS  | Norway          |
| Sanders, Frank        | Stork Thermeq B.V.                                    | The Netherlands |
| Sato, Mikio           | Central Research Institute of Electric Power Industry | Japan           |
| Schaevebeke, Tom      | ETN - European Turbine Network                        | Belgium         |
